Apply to Rails Girls LA March 15&16th 2014   #2

Name *	Resham Parikh
Email *	parikhresham@gmail.com
Experience Level Check All That Apply	• I have html and css experience • I have worked on some Ruby and/or Rails tutorials
Do you have any previous programming experience? Please explain. What languages? For how long? What did you make? In school or on your own? Do you currently program? This helps us group students when working in small groups. *	When I was in middle school (about 10 years ago), I self-taught myself HTMl & CSS by manipulating the codes on existing website templates in my free time. I created mini blogs through free hosting services (like Geocities). I don't currently program, but I do use HTML/CSS every now and again.
Do you have any experience programming with Ruby or Rails? Please explain. Same as above. *	I took a tutorial once and also downloaded the "Hour of Code" App, but don't have any solid experience or applicable knowledge yet.
How did you hear about Rails Girls LA? *	Email newsletter
What inspired you to want to come to this workshop? *	I have been wanting to learn code for the past couple of years. Most importantly, I think we need more women in technology for reasons pertaining to gender equality, and I have a desire to break into the space. I also have several great tech business ideas that I'm able to design, but unable to create myself. This workshop seems like the perfect place for me to gain these skills, advance a cause I believe in, and dream up a better future in tech.
What operating system do you use? *	OS X (Apple Mac)
Are you over 21 years old? It's okay if you are not. ;) *	Yes
If No, how old are you?	
Do you have any dietary restrictions that we should be aware of? *	None
