Apply to Rails Girls LA March 15&16th 2014 #14

Name *	Tyree Pace
Email *	tyreepace@gmail.com
Experience Level Check All That Apply	• I have html and css experience • I have worked on some Ruby and/or Rails tutorials • I have my computer set up to work in Ruby & Rails
Do you have any previous programming experience? Please explain. What languages? For how long? What did you make? In school or on your own? Do you currently program? This helps us group students when working in small groups. *	I am currently employed as a javascript developer. I started off working mostly with emberjs (which I prefer) but now work mainly with backbonejs. I can do a bunch of stuff with jquery and can write tests using mocha with chai and cucumber with capybara and poltergeist.
Do you have any experience programming with Ruby or Rails? Please explain. Same as above. *	My current company has a Ruby backend stack and I've done some fiddling with that, mostly just simple definitions or adding an attribute. I've also messed around a little bit with .erb files. I can set up my environment for Ruby or Rails and run basic rake tasks.
How did you hear about Rails Girls LA? *	I heard about this one from my friend Beth Kuchar.
What inspired you to want to come to this workshop? *	I've been wanting to broaden my skills out to be more of a full stack developer instead of just a front-end developer. I tried to go to a RailsGirl workshop previously,but it was in San Diego which was just a little too far for me to go. I think this would be a fun opportunity to learn Rails and network with other girls who want to do the same thing.
What operating system do you use? *	OS X (Apple Mac)
Are you over 21 years old? It's okay if you are not. ;) *	Yes
If No, how old are you?	
Do you have any dietary restrictions that we should be aware of? *	None
