Apply to Rails Girls LA March 15&16th 2014   #21

Name *	Kaitlin Jaffe
Email *	kaitlinjaffe@gmail.com
Experience Level Check All That Apply	• I have html and css experience • I have done some programming before but it was a long time ago
Do you have any previous programming experience? Please explain. What languages? For how long? What did you make? In school or on your own? Do you currently program? This helps us group students when working in small groups. *	I have learned some HTML and CSS on CodeAcademy and other books. I taught myself in order to make a website for a project I was working on: http://guerrillacartography.net/home.htm. I loved the challenge of learning the different languages, and found myself tinkering for hours on end. Since then I have been studying more on my own, and I hope to possibly one day work as a programmer. I am currently learning the basics of BASIC, C++, and Revolution on my own.
Do you have any experience programming with Ruby or Rails? Please explain. Same as above. *	No experience with Ruby on Rails! But I am looking forward to learning :).
How did you hear about Rails Girls LA? *	From a friend, Brendan Loudermilk, who has coached at other RailsGirls events.
What inspired you to want to come to this workshop? *	I am trying to learn programming on my own, and am very excited about the opportunity to learn and collaborate with others. The more I learn programming, the more I am encouraged to keep learning, as I appreciate the complexity of the programs that I use in my daily life. I've heard great things about RailsGirls, and I hope to be a part of it to gain the skills I need to make programs of my own.
What operating system do you use? *	OS X (Apple Mac)
Are you over 21 years old? It's okay if you are not. ;) *	Yes
If No, how old are you?	
Do you have any dietary restrictions that we should be aware of? *	Vegetarian
